MPA/147608

PRELIMINARY RECITALS

Pursuant to a petition filed February 20, 2013, under Wis. Stat. § 49.45(5), and Wis. Admin. Code § HA 3.03(1), to review a decision by the Division of Health Care Access and Accountability in regard to Medical Assistance, a hearing was held on April 16, 2013, at Chippewa Falls, Wisconsin. A hearing scheduled for March 18, 2013, was rescheduled at the petitioner's request.

The issue for determination is whether the petitioner is entitled to medical assistance reimbursement for orthodontia.

There appeared at that time and place the following persons:

FINDINGS OF FACT

1. The petitioner (CARES # [REDACTED]) is a resident of Chippewa County.

2. On January 13, 2013, the petitioner with her provider, [REDACTED] [REDACTED], requested authorization for orthodontic work. The Division of Health Care Access and Accountability denied the request on January 14, 2013.
3. The petitioner's Salzman index score is 24.
4. The only description of the petitioner's orthodontic problems in the prior authorization request is the following in the Diagnosis section of that document:

CLASS I MALOCCLUSION RIGHT AND LEFT; MODERATE CROWDING
MAXILLARY AND MANDIBULAR ARCHES.

DISCUSSION

Medical assistance covers orthodontia if the recipient obtains prior authorization. To receive authorization, a service must be medically necessary rather than merely socially desirable or cosmetic. Wis. Admin. Code, § DHS 107.02(3)(e). The Division of Health Care Access and Accountability uses the Salzman Index, which measures the crookedness of teeth (referred to as a malocclusion), as the first step in determining whether orthodontia is medically necessary. It automatically approves requests where the score is 30 or greater; if the score falls below 30, it denies the request unless it contains documentation of extenuating circumstances. *See MA Provider Handbook*, p. B5.2-070. The petitioner's score is 24. Her mother testified that her daughter's teeth caused no problems now but that she worried that they could in the future. There is no documentation of any extenuating circumstances in the file. While I appreciate the concerns of the petitioner's mother, the rules do not allow me to approve benefits based upon speculation about future problems. I note, nevertheless, that if the petitioner's teeth do get worse, she can file a new request for orthodontia

CONCLUSIONS OF LAW

The Division of Health Care Access and Accountability correctly denied the petitioner's request for orthodontia because he has not established by the preponderance of the credible evidence that he has a handicapping malocclusion.

THEREFORE, it is

ORDERED

The petitioner's appeal is dismissed.
