FINDINGS OF FACT

1. The petitioner is a resident of Polk County.

2. On August 7, 2014, the petitioner with [REDACTED] D.D.S., requested orthodontic work at a cost of \$3,600. The Division of Health Care Access and Accountability denied the request on September 22, 2014.
3. The petitioner's Salzmann score is 6.
4. The prior authorization request indicated that the petitioner's teeth had "Class I w/ x-bite #7." Nothing in the request indicates that the petitioner has any extenuating circumstances that require immediate orthodontic care.

DISCUSSION

Medical assistance covers orthodontia if the recipient obtains prior authorization. To receive authorization, a service must be medically necessary rather than merely socially desirable or cosmetic. Wis. Admin. Code, § DHS 107.02(3)(e). The Division of Health Care Access and Accountability uses the Salzmann Index, which measures the crookedness of teeth (referred to as a malocclusion), as the first step in determining whether orthodontia is medically necessary. It automatically approves requests where the score is 30 or greater; if the score falls below 30, it denies the request unless it contains documentation of extenuating circumstances. *See MA Provider Handbook*, p. B5.2-070. The petitioner's score is 6. Nothing in her request indicates that there are extenuating circumstances. Her dentist wrote that she had "Class I w/ x-bite #7" Her mother said the petitioner had a crooked jaw, but she did not know if this caused any problems for her. Based upon this, I must find that she has not established a handicapping malocclusion.

CONCLUSIONS OF LAW

The requested orthodontia is not medically necessary.

THEREFORE, it is ORDERED

The petitioner's appeal is dismissed.
