DECISION

MDD/159912

**PRELIMINARY RECITALS**

Pursuant to a petition filed June 02, 2014, under Wis. Stat. § 49.45(5), and Wis. Admin. Code § HA 3.03(1), to review a decision by the Manitowoc County Department of Human Services in regard to Medical Assistance, a telephone hearing was held on September 23, 2014.

The issue for determination is whether petitioner is disabled, as that term is defined for Medical Assistance purposes.

There appeared at that time and place the following persons:

**FINDINGS OF FACT**

1. Petitioner is a resident of Manitowoc County.
2. Petitioner applied for MA on April 3, 2014. By letter dated July 18, 2014, the Bureau found that petitioner was not disabled. Petitioner sought reconsideration, but the Bureau affirmed its determination on August 15, 2014.

3. Prior to or concurrently with the MA application, petitioner also applied for Social Security disability benefits and Supplemental Security Income (SSI). Those benefits were denied on July 15, 2014, with findings of no disability.
4. The record does not indicate any new medical impairment, nor any qualified worsening of the impairments considered in the Social Security decision.

### DISCUSSION

A person between ages 18 and 65, with no minor children, must be blind or disabled to be eligible for MA. A finding of disability must be in accordance with federal social security/SSI standards. See Wis. Stat. § 49.47(4)(a)4. Because the standards are the same, a finding of no disability for Social Security/SSI purposes made within 12 months of the MA application is binding on a State Medicaid (MA) agency. Exceptions may occur only if certain conditions exist such as allegations of a different disabling condition or changes in the previously considered conditions. A review of the record indicates that none of the exceptions apply here. See 42 C.F.R. § 435.541(a); see also U.S. Department of Health and Human Services commentary, 54 Fed. Reg. 236 (1989).

Even if an individual alleges that his or her condition has worsened since the most recent SSA decision of no disability, DHA may not have jurisdiction. If an individual alleges less than 12 months after the most recent SSA determination denying disability that his or her condition has changed or deteriorated since that SSA determination, DHA may make an independent determination of disability for purposes of MA only if one of the following is true:

- (1) The individual has applied to SSA for reconsideration or reopening of its disability decision and SSA refused to consider the new allegations; or,
- (2) The individual no longer meets the nondisability requirements (such as the income and asset limits) for SSI but may meet the state's nondisability requirements for MA.

See, 42 C.F.R. § 435.541(c)(4)(iii) (1997).

Thus, even if the petitioner alleged that there has been a worsening of the impairments, there is no evidence that either of the above alternatives is true in the petitioner's case. Therefore, DHA is bound by the SSA decision made July 15, 2014, and must follow it. Because petitioner has been denied Social Security/SSI following a finding of no disability, I must conclude that petitioner is not eligible for MA at this time. If the petitioner wins an appeal of the SSA decision, she would be eligible for MA from the date of onset for SSI, assuming she meets all other requirements. The petitioner may also reapply for MA.

### CONCLUSIONS OF LAW

Petitioner is not disabled as that term is used for MA purposes pursuant to Wis. Stat. § 49.47(4).

**THEREFORE, it is**

**ORDERED**

That the petition for review is dismissed.
