DECISION

MPA/164368

PRELIMINARY RECITALS

Pursuant to a petition filed February 26, 2015, under Wis. Stat. § 49.45(5), and Wis. Admin. Code § HA 3.03(1), to review a decision by the Division of Health Care Access and Accountability in regard to Medical Assistance, a telephone hearing was held on April 09, 2015.

The issue for determination is whether the Division correctly denied a prior authorization request for a non-preferred prescription drug, Harvoni.

There appeared at that time the following persons:

ADMINISTRATIVE LAW JUDGE:

Peter McCombs
Division of Hearings and Appeals

FINDINGS OF FACT

- 1. Petitioner (CARES # Redacted) is a resident of Dane County. She is certified for MA or BadgerCare Plus.

2. On January 10, 2015, a prior authorization request was submitted on the petitioner's behalf for Harvoni, a non-preferred prescription drug. The cost is listed as \$33,311.45 for 84 tablets. The Division issued written notice of denial of that request on January 23, 2015.
3. The Division's basis for denial is that the petitioner's condition does not meet the severity standards that the Division has set as a condition for approval.
4. The petitioner, age 51, is diagnosed as a hepatitis C carrier.
5. Currently, the petitioner's hepatitis C has not advanced to any of the following stages:
  - Compensated cirrhosis
  - Metavir score of F3 or greater or evidence bridging fibrosis
  - Serious extra-hepatic manifestations of hepatitis C virus (HCV)

### DISCUSSION

Federal MA rules do not require a state to cover prescription drugs; such coverage is at state option. 42 C.F.R. § 440.225. The Wisconsin MA program opted to pay for some prescription drugs. Wis. Admin. Code § DHS 107.10. Non-preferred prescription drugs must receive prior authorization as a condition of payment. *Id.*, 107.10(2)(d). In evaluating a prior authorization request, the program considers the authorization standards at § DHS 107.02(3)(e). Those standards include the requirements that the requested service be a medical necessity, appropriate, and cost effective, and that the existence of less expensive alternative services be considered. *Id.* The petitioner bears the burden of proving that these standards are met.

As an aid for consistent authorization request evaluation/approval for non-preferred, high-priced hepatitis C drugs, the Division's consultants prepared policy standards related to severity, which became effective in December 2014. Those published standards require that the patient's hepatitis C must have advanced to any of the following stages:

- Compensated cirrhosis
- Metavir score of F3 or greater or evidence bridging fibrosis
- Serious extra-hepatic manifestations of hepatitis C virus (HCV)

The Wisconsin MA program does cover the less expensive prescription drug Interferon for treatment of less severe hepatitis C complications. *Id.*, *Preferred Drug List-Quick Reference*. I conclude that the above policy is reasonable.

There is no dispute that the petitioner's condition has not deteriorated to the levels identified in the above policy. She does not have cirrhosis of the liver, and her provider has not calculated a Metavir score. The petitioner is not on a liver transplant waiting list, and the prescriber did not identify serious extra-hepatic manifestations of the hepatitis C virus.

The petitioner's testimony did not identify current hepatitis C symptoms or other physical problems. She would prefer to be proactive regarding her health, and obtain this new medication to prevent future complications, including damage to her liver.

However, based upon the totality of the record here it is evident that the petitioner has not established that she meets the program's authorization requirements for Harvoni. The Division's position is not unreasonable, and it is therefore sustained.

### **CONCLUSIONS OF LAW**

1. The requested non-preferred prescription drug Harvoni is not a medical necessity, nor is it the most appropriate or cost effective method of treating the petitioner's condition at this time.
2. The Division correctly denied the prior authorization request for Harvoni.

**THEREFORE, it is**

**ORDERED**

That the petition is dismissed.
