DISCUSSION

Personal Care Services are a covered service by Medicaid. They are defined as, "medically oriented activities related to assisting a recipient with activities of daily living necessary to maintain the recipient in his or her place of residence in the community. These services shall be provided upon written orders of a physician by a provider certified under s. DHS 105.17 and by a personal care worker employed by the provider or under contract to the provider who is supervised by a registered nurse according to a written plan of care." *Wis. Admin. Code DHS §107.112(1)(a)*.

Prior authorization is required for personal care services in excess of 250 hours per calendar year and for home health services covered under Wis. Admin. Code DHS §107.11(2), that are needed to treat a recipient's medical condition or to maintain a recipient's health. *Wis. Admin. Code DHS §107.112(b)*

The Department of Health Services requires prior authorization of certain services to:

1. Safeguard against unnecessary or inappropriate care and services;
2. Safeguard against excess payments;
3. Assess the quality and timeliness of services;
4. Determine if less expensive alternative care, services or supplies are usable;
5. Promote the most effective and appropriate use of available services and facilities; and
6. Curtail misutilization practices of providers and recipients.

Wis. Admin. Code § DHS107.02(3)(b)

"In determining whether to approve or disapprove a request for prior authorization, the department shall consider:

1. The medical necessity of the service;
2. The appropriateness of the service;
3. The cost of the service;
4. The frequency of furnishing the service;
5. The quality and timeliness of the service;
6. The extent to which less expensive alternative services are available;
7. The effective and appropriate use of available services;
8. The misutilization practices of providers and recipients;
9. The limitations imposed by pertinent federal or state statutes, rules, regulations or interpretations, including Medicare, or private insurance guidelines;
10. The need to ensure that there is closer professional scrutiny for care which is of unacceptable quality;
11. The flagrant or continuing disregard of established state and federal policies, standards, fees or procedures; and

12. The professional acceptability of unproven or experimental care, as determined by consultants to the department.”

Wis. Admin. Code §DHS107.02(3)(e)

“Medically necessary” means a medical assistance service under ch. DHS 107 that is:

- (a) Required to prevent, identify or treat a recipient's illness, injury or disability; and
- (b) Meets the following standards:
 1. Is consistent with the recipient's symptoms or with prevention, diagnosis or treatment of the recipient's illness, injury or disability;
 2. Is provided consistent with standards of acceptable quality of care applicable to the type of service, the type of provider, and the setting in which the service is provided;
 3. Is appropriate with regard to generally accepted standards of medical practice;
 4. Is not medically contraindicated with regard to the recipient's diagnoses, the recipient's symptoms or other medically necessary services being provided to the recipient;
 5. Is of proven medical value or usefulness and, consistent with s. DHS 107.035, is not experimental in nature;
 6. Is not duplicative with respect to other services being provided to the recipient;
 7. Is not solely for the convenience of the recipient, the recipient's family, or a provider;
 8. With respect to prior authorization of a service and to other prospective coverage determinations made by the department, is cost-effective compared to an alternative medically necessary service which is reasonably accessible to the recipient; and
 9. Is the most appropriate supply or level of service that can safely and effectively be provided to the recipient.

Wis. Adm. Code. §DHS 101.03(96m)

Petitioner has the burden to prove, by a preponderance of the credible evidence, that the requested services meet the approval criteria.

The petitioner’s provider requested 17.75 hours of PCW time per week. The Department denied this request, and the petitioner appealed. Prior to the hearing while the appeal was pending the Department approved 9.5 hours per week of PCW time. The petitioner’s mother stated that she was in agreement with this amount of PCW time for her son.

In determining how many hours of personal care services an individual is allowed, a service provider completes a personal care screening tool (PCST). A link to the blank form can be found in the on-line provider handbook located on the Forward Health website: <https://www.forwardhealth.wi.gov/WIPortal>, under topic number 3165. The responses are then entered into a web-based PCST, which cross references the information with the Personal Care Activity Time Allocation Table.

The Personal Care Activity Time Allocation Table is a guideline showing the maximum allowable time for each activity. *On-Line Provider Handbook Topic #3165*; this chart can also be found at the aforementioned website.

In general seven activities of daily living (ADLs) are reviewed: 1) Bathing, 2) Dressing, 3) Grooming, 4) Eating, 5) Mobility, 6) Toileting, and 7) Transfers. In addition, Medically Oriented Tasks (MOTs), such as glucometer readings or medication assistance, are also examined.

In this case there is no issue for determination as the petitioner agrees with the 9.5 hours per week of PCW time that the Department approved while this appeal was pending. Based upon the Department's letter and the petitioner's agreement, I conclude that this amount of PCW services will meet the petitioner's need with respect to all of his ADLs.

CONCLUSIONS OF LAW

THEREFORE, it is **ORDERED**
