FINDINGS OF FACT

1. Petitioner is a resident of Clark County.
2. Petitioner's provider filed a PA request for a lower partial denture on 12/24/15.
3. Following review of the submitted documentation, the Department denied the request.

4. Petitioner appealed.

DISCUSSION

Medical assistance requires prior authorization before a person can receive a partial denture. Wis. Admin. Code § DHS 107.07(2)(a)3.b. The petitioner seeks an lower partial denture, which the Office of Inspector General denied because it contends she has significant bone loss.

The *Online Provider Handbook for Dental Services*, Topic 2895 indicates that medical assistance will pay for “partial dentures *only* for members with good oral health and hygiene, good periodontal health (AAP Type I or II), and a favorable prognosis where continuous deterioration of teeth and periodontal health is not expected.” (Emphasis in the original.) It offers no further explanation about constitutes good oral health and hygiene, good periodontal health.

Similarly, the Office of Inspector General’s denial contains little specific information concerning what the chances are that the denture will succeed or fail. Although the Office’s reasons for denial are vague, nothing in the petitioner’s prior authorization request or a subsequent letter from his dentist contradict the Office’s claim. Petitioner has the burden of proving by the preponderance of the evidence that the requested denture will successfully treat the problem. Because petitioner have not done so, the Office of Inspector General correctly denied that request.

CONCLUSIONS OF LAW

The Office of Inspector General correctly denied the petitioner’s request for a lower partial denture because she has not shown that it is medically necessary.

THEREFORE, it is

ORDERED

The petitioner's appeal is dismissed.
