**Subject:** About secrets in government proceedings

Here now I am watching as well as many, many others on your proceedings to hinder public access to government dealings. You best be advised there is a big election coming up in the coming year and sure as heck your jobs will be looked at by both republican and democrats. The public will not stand for secrecy of any type. You may say that some records are just preliminary but all record of conversations electronic or paper should be available if government in this state is to be truly open. The present closing of transitory records is bad and will be noted by many in all kinds of news, social media and campaigns for office. Be warned and change your ways.

Sincerely,

Richard Csavoy
