Subject: Access to electronic communications of all public employees

Good evening,

Thank you for your service to our community. We are writing to request that you resting any and all action limiting access to any and all communications electronic or otherwise. I believe as members of the public we have the right to know what our public employees are up to. I am not insinuating any wrong-doing, but know that just the chance of impropriety can be curbed if one knows there is a chance to be found out. This is very similar to doing away with accountability boards.

We need to have checks and balances I the system to keep people accountable. We will watch the actions of the board and make future decisions accordingly.

Regards,

Todd and Paula Loepfe
