Subject: Access to public records - Rescind decision to restrict.

Members of the Board,

I am writing to you to ask that you rescind the decision to limit access to text messages, emails, Facebook posts and other electronic communication by public employees. Government business should not be carried out in private and the public has a right to this information as government operations should be open and transparent.

You as a board have a responsibility to keep public records public and by restricting access to this information you are contributing to a what appears to be direct attempts to conduct government business in secret and perhaps even unethically. Do the right thing and keep the records open so government officials have to answer to the public about the business they conduct and decisions they make while on the job.

Thank You
Mary Jo Driscoll
