Subject: Access to public records electronically

Public Records Board, Board members and State Officials,

I am very concerned about you limiting my access to open government and I find it unacceptable. You quietly, with no public notice or reporting, changed the definition of transitory records. When you conduct public business and spend taxpayer dollars electronically, I have an interest in those communications and a right to see them. Do not curb my ability to know what my elected officials are doing with my money.

Please leave out open records law alone and keep public records public.
Stop working behind the scenes to give politicians excuses that they can hide behind.

Please rescind your action to limit access to text messages, emails, Facebook posts and other electronic communications by public employees.

Thank you,
Patricia Stroik
