Subject: Access to public records

Dear Board,

Please rescind your action restricting public access to records of various types. All records belong to the public who pays the salaries of government employees and elected officials and pays the cost of government. Without the broadest possible access to these records, the public cannot monitor government effectiveness nor protect public property. Your earlier action was quickly used as an excuse to keep information from the public and will continue to do harm unless it is rescinded.

Sincerely,

Jane Jiumaleh
Madison, WI
