Subject: Action limiting public access to electronic communications by public employees

This decision by the Public Records Board is not in the best interest of the citizens of the State of Wisconsin. The decision undermines Wisconsin's tradition of open government. The continual assault on the public's right to information regarding all government decisions affecting them is egregious and quite frankly, suspicious.

This ruling should be rescinded. We intend to vote out of office any publicly elected official representing our district and state that supports hiding the free disclosure of information. This is tactic used by fascist states, and does not represent the will of the people of Wisconsin.
