Subject: Allow me my freedom

I sincerely request that you rescind your actions to limit public access to electronic communications by public employees.

This administration and legislature has advocated vociferously to give power back to the people of Wisconsin. Well thank you, I'll accept that power so that I and the rest of the public have access to all communications, including that which is considered "transitory." To say that those messages have only temporary significance is insulting. I want to know what is going on, particularly during those late night, holiday weekend decisions made by an obscure board.

Give me back my power to know! What the Public Records Board has done is take away my ability to influence the people who represent me. Take this opportunity to shine a bright spotlight on what is going on in our state government.

Peace,
Chris Slowinski
