Subject: Changes to transitory records definition

Mr. Blessing,

I am strongly against the actions taken by the board in August. We need more transparency in government, not less. If my current public servants do not like the rules, they should seek employment elsewhere. If my elected officials don't like the rules, they should not run for office. This is my government, you are under my employ. I will personally provide financial support to the actions required to maintain and expand government transparency, and those who try to reduce it.

Best Regards,

Jim Briskey
