Subject: Citizens NEED open public Records

Public Records Board,

I am writing regarding politicians efforts to hide public business from the public. ALL public records and communication between public officials and between public officials and private citizens or businesses needs to be open and available to the citizenry. Public officials and politicians cannot be allowed to make deals or discuss public policy without the ability of the public, that they serve, being fully aware of these communications. The United States worked hard to have an open/transparent government while fighting political corruption; it would be a travesty to go back to those days.

Thanks for working hard for our rights as citizens !
