Subject: Concern about government transparency

Dear Board:

I am very concerned about what is happening to the traditional open and honest government in Wisconsin. It is disappearing quickly. I want it stopped now! I want you to restore open government to all deliberations, correspondence, meetings, electronic communication, emails, written documentation, everything ---- this all should be open to the public!! That way we can be sure it is honest and above board. I have found that in the last five years that I cannot trust what comes out of state government. What is said is not what is happening. We are being lied to and I don't like it!! Things better change or there will be many folks booted out of public office and I will make sure of that. I have voted in every single election since I have been able to vote and I turned 66 this week!! The only reason you folks want to hide things is you are doing things you know are WRONG!! We are not stupid!! Once you lose the public trust, you will be GONE!!
