To: DOA Public Records Board Comments
Subject: Do not limit access to records

To Whom It Concern:

I would like to make my sentiments known to the board. The Public Records Board should rescind it's action to limit access to electronic communications by public employees. These limitations go against everything government by the people and for the people represent. I have a huge interest in knowing what the elected officials and their employees are doing on MY behalf at the state level and beyond. This secrecy is abhorrent in allowing people working for me to further their own gains and agendas. This can not stand and the fact that it was ever even considered is a travesty. A TRAVESTY! How dare you all decide what can and can't be open to the public. YOU are working for us. Did you forget that? YOU should protect the public from even the opportunity for backdoor politics. YOU need to rescind this action and do it now!
