Subject: Electronic Records Action
Importance: High

Hello,

I believe that electronic communications by public employees (being paid by me, the tax payer) should be available for public inspection.

In this day and age of e-mail and texts public access to these records is more essential than ever. Even this board is taking comments by **email**. If that is not a double standard I do not know what is.

Please keep government transparent and accountable, lest we digress to a secretive government that is not for the people.

Thank you,
