Subject: Electronic Records Belong to Citizens / Richard Albers

To the Public Records board:

It is irresponsible to hide any public information from us citizens. And I would ask that it stop working behind the scenes to give politicians excuses that they can hide behind whether you are a Republican or democrat it doesn't matter. Please remember you work for me, I don't work for you. You can be voted out of your job as fast as you were voted in. Have a good day.
