Subject: Electronic Records Belong to Citizens

As a citizen and taxpayer living in the state of Wisconsin I find it unacceptable and criminal that the Public Records Board made a secretive decision to limit access to public records.

I demand that the "Board" rescind its action to limit access to text messages, emails, Facebook posts and other electronic communications by public employees.

Your job on the "Board" is to protect the citizens of Wisconsin by insuring an OPEN GOVERNMENT and that all citizens who have an interest in "electronic communications" have the right to see them.

The Government Accountability Board has already been eliminated by our so called legislative representatives. Now there is no one to protect us from them!
