Subject: Electronic Records Belong to Citizens

I am extremely upset about the Public Records Board limiting access to public electronic records. This board needs to rescind its action that limit access to electronic records including text messages, emails, social media posts such as Facebook and Linked In and Twitter.

There is no justification for the cover-up, and elimination of these records. Storage space is cheap. Just ask the NSA that keeps track of our phone calls. I view this as an outrageous attempt by the Walker Republican leadership to hide what really goes on behind closed doors to cover up mistakes and corruption. Absolutely disgusting behavior.

Scott Walker promised transparency when he and the Republicans could control of Wisconsin government. This is one more example of the many failed promises made to the people of Wisconsin. Scott Walker and the Republican controlled legislature is placing Politics Before People. That behavior is Wrong.
