**Subject:** Electronic Records Transparency

To: Public Records Board

I am writing as a concerned citizen of Wisconsin. As a voter who has taken the time to inform myself regarding candidates before elections I feel that the representatives and I stress "represent"atives, in our state government MUST truly represent it's constituents and, if they are also presenting themselves as "public" officials then it MUST follow that all communications while in office be available and transparent to the public and those requesting records of any and all communications thereof. I have to know that I trust those whom I have voted into office. The current secretive changes the Public Records Board and other legislation in our state has eroded,not only my trust, but the trust of many people I know. The state of Wisconsin has lost it's appeal to many to live here and has become a state that is now voted as "one of the worst places to live". I lay much of this criticism at the door of our elected officials. This state has become the poster child and testing ground for all the PAC monied entities and those who choose to "buy" their way into getting what they desire at the expense of the citizenry. I am proud of my state and this deeply saddens me. The middle class is slowly disappearing and this alarms me. The power I do possess in my ability to VOTE INTO OFFICE those candidates who truly represent ME and the best interests of it citizens NOT THE PACS and the LOBBIES!!!! I will vote in all elections and encourage everyone I know to change those who are now in office and replace them with candidates that I trust will represent me and the interests of the fine citizens of Wisconsin not the 1%!
