Subject: Electronic Records

We need openness in government. We need to have ELECTED OFFICIALS that follow the will of the people of Wisconsin and NOT just a few people who are in government right now.

Our federal and state constitution has ALWAYS BEEN about free speech and openness in government and open records.

This will lead to a CORRUPT government. This will work against you all you elected people.

I will be following this very closely and I will not be electing you and your kind in the future.

You have been trying your hardest to have laws on the books to work against the PUBLIC interest.

Nancy Sundquist,

Waukesha, Wisconsin
