Our government at all levels is supposed to be "of the people, by the people, and for the people." The people means us - the public! It is unconstitutional for our lawmakers and public officials to run OUR GOVERNMENT in SECRET! You need to rescind your earlier action to limit public access to text messages, emails, Facebook posts and other electronic communications by public employees. If your actions and communications are honest and in the best interest of "we the people" why would you want to keep them secret?
