I strongly object to the continued attempt by the elected officials of Wisconsin to make public information unavailable to the citizens of this State. You are attempting to keep your activities secret and keep those who trusted you, by electing you to office, in the dark. By hiding texts, emails, Facebook posts you deprive the citizens of the right to know how their tax dollar is being used. We have a right to this information. It is time for the citizens of Wisconsin to place people in office that truly represent them. Mary Schaer schaermouse@wi.rr.com
