Subject: Electronic Records

My comment concerns government transparency. Wisconsin residents, voters and taxpayers deserve transparency in their government. When elected officials and any public employee try to limit access to public records, in this case, text messages, emails, Facebook posts and other electronic records, they are not carrying out good governance. I and many others are disgusted with these continuing attempts to hide political activities. Please start putting your constituents' interests ahead of political aspirations and specialist interest groups.

Please rescind your August action to limit electronic communications by public employees. We deserve better and we will show our dissatisfaction in the next election.
