Subject: Electronic Records

To Members of the Public Records Board:

Stop the descent of transparent government into indecent government. Just because our means of communication has evolved from paper to digital, the responsibility for honesty and openness has NOT changed one iota! "Open records" means public access to all electronic communication (email, text, etc. and whatever means comes next!) equal to public access to all written communication. There should be no reason to "hide" the communications that happen between and among government personnel from the public.

Thank you for your attention to these concerns!
