**Subject:** Electronic Records

While working as a public employee all records during that work should be available to the public. By limiting access to the records it does nothing more than give the impression that there is something to hide. There are enough liars and thieves in the world. Change the laws so there is more openness not less. This is all going backwards. We pay the salaries, you work for us the people. If you don't want us to know what is going on I for one will vote for someone who has nothing hide.
