Subject: Electronic Records

What next? What else? What other outrageous decision will this legislature come up with? What they are doing to Wisconsin is unconscionable and it never ends. I shudder to open my newspaper each morning to witness another infringement on our democracy and open government records. I oppose this move to limit access to any and all electronic records by public records. It's a sure sign of corruption in my book and I worry that this Madison gang of liars and thieves is akin to the foxes being in charge of the hen house.

Please wake up and do what's ethical and what's right for us the citizens of this state before any more damage is done.
