**To:** DOA Public Records Board Comments  
**Subject:** Electronic communications

Why is it that details about the public's business is done behind closed doors in secrecy?  
My husband and I are strongly suggesting, imploring, and pleading to have an open government.  
All our electronic communications should be public knowledge. It should be a key to a democracy  
and provide for the general welfare of the state and our country.  
Transitory records belong to the public and should be open to the public.  
Our state is becoming known for being corrupt and this will only add fuel to the fire.  
Please....no more dishonesty and attempts to hide from the public the knowledge  
they should know behind closed doors.  
Since we are involved in many organizations we have sent what is being done by  
to all these organizations which will number in large numbers.  
I also will bring this up in our church book group and advise others to tell members of  
their church groups to do the same. We want honest government.
