Subject: Electronic records and public access

As a concerned citizen and registered active voter, I believe that electronic communications by public employees need to remain available and open to public scrutiny. A government that wants to conduct its business without being open to scrutiny is contrary to American ideals and denies democracy to its citizens. An informed citizenry is the backbone of our democratic process.

Please reconsider and 'rescind your action to limit public access to text messages, emails, Facebook posts, and other electronic communications by/from/to public employees and all government agencies.

Thank you.
Kathryn Collins
