Subject: Electronic records belong to Wisconsin citizens

Dear Matthew Blessing and board members, My wife and I would like to have open government in Wisconsin. We don't care who is in office, let's not make it easy for anyone to hide material from our citizens. There should be no transitory records at all and any records or communications via text messages, emails, Facebook, and any other electronic means by public employees should be made public. Wisconsin has long been a leader in government, let's not take a back to anyone.
