Subject: Electronic records belong to citizens

You must rescind the recent action to limit access to text messages, emails, Facebook posts and other electronic communication by public employees. This "clarification" of open records laws is the opposite of what supporters claim and we, the public, will have none of it.

There will be consequences this year for anyone who persists in trying to curb the public's right to know what their elected officials are doing. The board has a responsibility to keep public records public.

Thank you.
