Subject: Electronic records belong to the people!

Let me be clear about this. ALL public records must remain public I read where Scott Walker hid behind the latest board's action saying he did not have text messages requested by the Wisconsin State Journal. That newspaper had sought text messages linked to a \$500,000 loan by the Wisconsin Economic Development Corp. to Building Committee Inc. which was promoted by top administration appointees. WEDC officials later strove to get federal taxpayer dollars to help the struggling Milwaukee based company even though the loan to BCI went sour . The owner of the firm A WALKER SUPPORTER AND DONOR had provided false information to the state. Nice!

Stop hiding information from the public. Keep public records public. Stop working behind the scenes to give politicians excuses they can hide.

There will be consequence in this election year for those trying to curb access to government!
