Subject: Electronic records belong to the public of Wisconsin

To whom it may concern:

Please do not vote to limit access to text messages, emails, Facebook posts and any electronic media written by public government employees.

First of all, it makes it look like our current public government employees have a need to hide their work. This is making many of us Wisconsin voters nervous. It also makes us voters feel that the current politicians are so desperate to keep their positions and that they will do everything and anything to keep them. We have begun wondering if keeping their jobs is more important than representing the peoples of Wisconsin.

Second, everything changes eventually. If this change happens, sooner or later, the democrats will represent its citizens. Will the republicans who are proposing this, be able to live with this change, when they are no longer the government decision makers?

Third, this proposed change does not make Wisconsin look good governmentally. Already, our state has been the fodder of nationally televised comedians.

Please keep Wisconsin's politicians honest and law-abiding. Keep an open government!

Very sincerely,

Bonnie Berglund Bruch
