Subject: Electronic records for Wisconsin

Public records board:

I can't believe that it seemed like a good idea to limit any Wisconsin state government records, whether they were electronic, on paper or any other medium.

I want journalists and the public to have unfettered access to knowing and understanding how decisions are made, more importantly, how state legislators are influenced and why they write such crazy legislation.

Senator Darling, Representative Brandtjen,

You are my state representatives. I implore you to ensure that the changes implemented last summer are repealed and that any legislation like this that is considered is voted no! I can't think of any arguments for closed government.

Respectfully,
Jeff Nelson
