Subject: Electronic records

What can I say except I don't believe that this could happen in my country.

Public Records Board means records are public.

What need to hide them if you have nothing to hide.

If this happens then you have to change your name

If this happens I will send you my suggestions for your new name.

Rita Biernat
Wauwatosa, WI

P.S To those others that are getting this email, read this mornings Milwaukee Journal/Sentinel, top page

I am following their suggestion and if you are so inclined do the same.
