**Subject:** Electronic records

Good Morning,

We would like to add our comments on the need to keep all government messages open and available to the public. What our government officials are doing and communicating (including electronic) should not be done in secret. If it is public business it is the business of all citizens and should never be done without our ability to observe it.

Thank you for the opportunity to present our opinion.

Harry and Janice Ruehlow  
1806 Candlewood Lane  
Richfield, Wisconsin
