Subject: Electronic records

ALL records belong to us, the PUBLIC! That's why they're called "public records".

Electronic records, including text messages, emails, Facebook posts and other communications by public employees MUST be available for the public to see.

Governor Walker and his Republican legislators would like to hide what they do so we, the people, won't know what's going on until our rights are diminished.

That's so WRONG!

I will not be voting for anyone who wants to hide public records from the public.

I thank the Milwaukee Journal Sentinel for posting its editorial today on the front page so many people will see it immediately and take action.

I am also sending this information to all of my friends and have already posted it on Facebook, where I hope others will act.

Our Wisconsin legislators seem to think they are part of the king's court and can just do as they please as if this were a kingdom.

This is NOT the way it works! They're on OUR payroll!

Thank you.
