**Subject:** Electronic records

I am writing this email to express my deep concerns about limiting access of electronic records of public officials and employees to the general public. These positions are not private enterprise positions, they are public, and funded directly by the taxpayers. Who in turn are demanding that the communications between officials and employees to each other and anyone else be released for review. To secretly pass laws to curtail open review and limit access is not democratic and proves corruption is rampant and present. Make them all open in an easy to read and request format.
