To: DOA Public Records Board Comments; Dave Hassler
Subject: Electronic records

I want to voice my opinion in stating I believe all electronic records by government officials in the state of Wisconsin should be accessible to the public. This includes emails, texts, Facebook postings, and other electronic communications. I have worked in the private sector for over 38 years and any electronic information could be viewed by my employers at anytime. The public is the employer of our state government officials and their staffs. Government only works in the best interest of all the people it represents if all information is transparent and not hidden in shadows. Leave our open records law alone. The board has a responsibility to keep public records public.
