Subject: Electronic records

I am writing to ask you to rescind your action to limit access electronic communications by public employees. I think it is appalling that you would even consider limiting the public's access to records of public employees. What excuse could there possibly be for wanting to limit the public's access to these records? Are we to assume there is something that is trying to be covered up?

There will be consequences in the upcoming elections if your actions are not rescinded. Please do the right thing and listen to your constituents.
