**To:** DOA Public Records Board Comments  
**Subject:** Electronic records

I wish to add my support for including all electronic mail, messages, Facebook postings, etc. as public records of any and all elected officials and public employees, both state, county, and local municipalities. I registered an open record request to the Wisconsin DNR last September and have as yet to receive any of the records I've requested. DNR has not even acknowledged receipt of my request nor have they indicated they are working on gathering the records requested although I've been told by a third party confidentially DNR is upset about my request.

Keep all electronic communications of any kind by a public employee subject to open records.
