Subject: Pulbic Records Vote on Electronic Communications by Public Employees
Date: Wed, 6 Jan 2016 11:57:04 -0600

Midnight Today, is the last chance to notify the Public Records Board that we would like texts, instant messaging, emails, Facebook posts--all electronic communications by public employees--open to the public. I definitely consider all of these electronic options for communication to be included in the open records requirement. If you choose not to include all of these, then you should absolutely require the all state business is communicated via media included in the open records law. NO telephone or in person discussions that are not recorded, and No use of electronic media that is not included in the open records law. If people cannot provide the documentation of the discussion, then their private electronic media should be fair game for searching for the actual trail and/or the elected representatives should be put under criminal investigation for not following the communication rules of government representatives. Every elected representative is an employee of the people of Wisconsin. If they are not serving the people as the people request, then they are committing fraud and should be investigated and punished. We have had too many laws and/or budgets passed this year that the majority of citizens sent communications to their representatives that they did NOT support those votes.

Thank you for taking my requests in account as you vote. We, the citizens of Wisconsin, expect you to do what is right for the people of Wisconsin. You are not the representatives of elected politicians or any other people or entities. We have a right to honest representation and protection from dishonest politicians. So far the citizens are losing and the dishonest politicians are winning. That is not right.
