Subject: Hearing on Public Records

To: Matthew Blessing

I am writing to inform you and your committee of my opposition to the latest effort to limit access to public records. Your committee's clandestine change to the definition of "transitory records" appears to be designed to allow secret electronic communication regarding public matters by elected officials. This behavior is unacceptable on the part of any Wisconsin public servant and puts our legislators and other elected officials in the same category as Hillary Clinton's e-mail issues.

I believe we can do and be better than this. I ask you and your committee to reconsider this definition and return all electronic communication done by public officials (including text messaging, e-mails, Facebook and Twitter postings, etc.) regarding public matters to open access status.

Sincerely,
Nora Ladewig
