Subject: Keep ALL public records public

As Americans, we all agree that our public officials and employees, elected and appointed, work for the people. As such, their work product, including but not limited to texts, emails, Facebook posts, must be accessible and open to review. This transparency is an essential part of a strong democracy. The secretive freedom grab by the joint finance committee, in an evil attempt to gut the state's open record law, is unacceptable and must be rescinded. Andrea Stack Oconomowoc WI
