Subject: Keep All Government and Public Employee Records Open, and Public

Please add my name to those who support a fully open and easily accessible public record. I have long been proud of Wisconsin's legacy and leadership in good, clean and verifiable government. I believe that the records created by politicians and government employees on governs time, all official records, regardless of the media, belong to the people. And the people should have full and easy access to those records.

Please do not allow politicians or government officials to hide their actions and deliberations.

Do not prevent the people from exercising our essential rights, and our democratic duty to basic oversight. Democracy must be conducted in the open, under the clear, watchful eye of its citizen voters.

Thank you,
Terence W. Amerson
