Subject: Keep All Public Records Public

To the Public Records Board:

My family and I are very disturbed by the Board's attempts to limit access to public records, including all electronic communications by public employees. Our democracy requires open and transparent government, and we are opposed to secret and private dealings more common in totalitarian dictatorships.

The Public Records Board does not have the right to take action that allows those in power to operate in secret. Citizens have the right to access all public records, and the Board has the responsibility to keep all public records public. Please don't let this attack on democracy happen on your watch!

Sincerely,
Joan Maas
