Subject: Keep your name!

Dear reader,

Please be advised that I feel it is necessary for your board to exist. As a safe keeper of democracy, access to ALL public records and communication is essential. Emails, texts, tweets, Facebook posts and all electronic info should always be transparent and available to the press and public. The press is our fourth branch of government.

When your recent attempt to exclude this was done secretly, my trust in the legitimacy of your name was lowered. Remember that your partisan actions will work against you when parties change. Remain faithful to your name PUBLIC Records Board.
