Subject: Limitation of access to electronic records and communications by public employees

I urge you to reconsider your proposal to limit access to electronic records and communications by public employees. Democracy demands openness. Public Employees are to serve the public. The only way to tell if they are faithfully carrying out their duties is by examining their electronic records and communications. Three members of Governor Walker's inner circle have gone to jail because we had access to electronic records and communications. //What are you trying to hide and why??
